The Joint Special Committee on Printing in Conference with a like Committee of the Council have investigated the subject matter of Territorial printing and find
That the Secy of the Territory acting under the instructions of the Secy of the Treasury of the U.S. has for several years claimed and exercised the prerogative of appointing the Territorial Printer, & disbursing the money appropriated by the General Government for printing.
That $4.00.— is the amount appropriated by the General Government for printing the Laws and Journals of the several Sessions and that the amount to be paid for the Territorial printing of any one Year is limited by a law of Congress to that sum.—
That the Secy of the Territory has appointed Messrs Bagley & Harned Territorial Printers, and Contracted with them to do the printing of the Assembly to that amount of said appropriation of $4.00.— at the Maximum of the Government rates.
The Joint Committee after a full examination of the subject are of the opinion that at the rates contracted by the Secy with Messrs Bagley & Harned the sum appropriated by the General Government will not be sufficient to pay for the publication of the Laws & Journals, and the incidental printing Session.
And having ascertained that there will be no difficulty in increasing the printing to be done at about one half the Maximum Government rates Contracted to pay in a Proportionate ratio to their respective Sheets that each contractor pursue a system of Economy, Believing that the case of the Members may such bills and orders as may be of a general nature,
And Concur with and instruct the Auditor, & to the Legislature to discharge the Money appropriated by the General Government for Printing that the Assembly contract with some responsible party to do its printing at the Government rates to be paid out of the Territorial Treasury Provided the Secy of the Territory shall not provide for the payment of the same.

Mr Favorite Submitted the following minority report.

Whereas the Majority Report of the Joint Committee on printing does not correspond with our views of propriety and economy, we do not wish to be placed in a false position on a question of no little concern to the public, Therefore we beg leave to submit the following report.

In the first place we find that a valid contract has been entered into by the Secretary of the Senate for the printing of the laws and incidental work which may result from the deliberations of this session of the Legislature Assembly and in the second place we find that the sum appropriated by Congress, Four thousand dollars to defray such expenses will as near as can be approximated meet the probable demand that will be made for printing such matter as properly belongs to the Government Department.

The laws as printed last Session estimated at the present rates established by the Secretary of the Treasury will make a thousand copies of the Statutes of this session of the same dimensions cost about four hundred dollars, the Journals of both Houses about Sixteen hundred dollars, this will leave a balance of the appropriation for the work of fifteen hundred dollars, which in consequence of the expense which seems to prevail that the local and special laws should not be printed in full form. This Report will not meet the probable demands in that branch

We find that Messrs Bagley & Co, are willing to enter into Bonds obligating themselves to do all the work in every respect, four thousand dollars appropriation by Congress that may be ordered by the Legislature. At Chargo

Therefore at the rate of fifty five cents per thousand for Composition & the same for taking, printing, and changing their imprints for all paper consumed which the Printers are allowed about 12 per Cent over Cost viz San Francisco Evening Mercury, even as low as the printing can possibly be done, this side of San Francisco every thing considered that is if any great portion of the work should be Book work the bill now done might be done for less, Mr Gunn proposes to do such work for 60 cents viz Green Back. Capital does not appear that he will agree to do the whole of the work including the Book work as well as the bill work for a less sum than seventy five (75) cents viz manuals nor does it appear that he will agree to with Bonds obligating himself to do any portion of the Book work or any other kind, while in the other hand Messrs Bagley & Co. agree to give bonds to perform all the work for a less sum. Your Memorialist finds it difficult to reconcile itself to the fact that if the Government printer is not allowed to do the bill work, together with other work as fast as the Government requires the Secretary will have to appoint any clerk that may be so contracted for such printing as if exempt from the restrictions from the Secretary of the Senate, that the bill work is work that devolves upon the Government to get done, & the price is stipulated what he should pay neither more nor less.

What shall we do with this memorial, if it is not to be objected towards closing the public printing, shall we send it back to next session after the Bill work is done at the expense of the Senate, and see what there is enough work left to exhaust the appropriation. There are questions which occur to your Memorialist as some may pertinent for consideration when there is a probability that there will be an expenditure amount of work done this session, for instance, there is some talk of having a new Code printed, But as one way of clearing with all probabilities, we have to limit such facts as already presented, Say that upon the distributing of the matter before this session should take a new Code & the republication or codification of some of our old statutes,

The Organic Act provides that the Government shall furnish any

for the territory, she has done it in the past. And must continue to do so in the future until that act is repeal. And there is every reason to believe that if a Joint Memorial emanating from this Legislature soliciting her to appropriate any sum to meet such a demand she will undoubtedly accede to our demands.

375

would therefore recommend the appointment of Messrs Bagley and Hamond, as territorial printers the former receiving "20" cents less on the thousand for composition and 20 cents less on the token for printing, than that of any other offer."

Respectfully Submitted

" Gentlemen of the House of Representatives

In arising to perform my last duty. as Speaker of this House it is but just to you before announcing the adjournment that I should make one or two remarks. While the session has been short our records show that more business has been transacted than is usually done in a much longer one. You are entitled to the merited compliment to your industry and zeal. A better working body of men. I am satisfied has never convened in the Capitol An Session worthy of the name. has disturbed the General disposition to labor for the good of the people of the Territory. or at any time relieved the promptings of duty

To your everlasting praise be it said that no partizan

political legislation blot the page of your Journal or will appear an accusing witness upon your Statutes

The session has been a pleasant one, to me and I hope that it has proved equally pleasant to you I have endeavored to perform my duty impartially and if I have failed in any particular to do so; I beg you to attribute that failure to the only true cause that of a lack of judgment, and not to any want of inclination. To whatever of success I may have attained in the discharge of the duties of the Chair the greater credit is therefore due to you. For the cheerful aid you have rendered me therein.

And now gentlemen wishing you a safe and speedy journey to your homes and that you may then find all your loved ones in the enjoyment of natures choicest blessings and earnestly hoping that future lives may prove prosperous and happy. I now perform my last duty as your presiding Officer and declare this House. adjourned "Sine die".
